Nocturnal turning points across climate regions
A Minimum dew point
B Nocturnal wet-bulb
C Night cooling, tail form

1.0
Night cooling, tail form (dimensionless)
D West minus east shift
Minimum daily low temperature
Formaldehyde, time above 75th pct.
Cropland in corn
Night cooling, tail form
Minimum dew point
Nocturnal wet-bulb
Night cooling, mean form
Warm-hour wet-bulb
Mean night surface temperature
Formaldehyde to NO2 ratio
Mean fine particulate matter
not located west of 100° W
